Professional Skills: Problem solving, teamwork, time management, adaptability, technical documentation, continuous learning

PROFESSIONAL EXPERIENCE

Business Operation Assistant | Kushal International Trading Concern, Nhu Bahal, Lalitpur **Apr 2018 - Oct 2025**

- Maintained purchase, sales, and stock records with high accuracy for day-to-day operations.
- Prepared bills and invoices, handled customer communication, and supported daily transaction workflows.
- Assisted with quarterly VAT filing and operational documentation.

Web Development Intern (Laravel) | Ram Janaki Software Pvt. Ltd., Samakhushi, Kathmandu **Jan 2025 - Apr 2025**

- Completed a 3-month internship with the Web Development Team, earning a formal internship certificate.
- Trained hands-on in Laravel framework development covering backend development, API integration, and database management.
- Contributed to project activities for "Gaming Paradise", delivered as a Laravel website and JavaFX desktop application.

Full-Stack Developer Trainee | Aster Innovations (Pvt.) Ltd., Pulchowk, Lalitpur **Oct 2025 - Jun 2026**

- Selected into the eight-month "Full Stack Development" training organized by Lalitpur Metropolitan City and Aster Innovations, with Changunarayan Foundation (CNF).
- Trained hands-on in JavaScript, React, SQL Server (SSMS), .NET, and ASP.NET through applied feature implementation, debugging, and assignments.
- Completed the program in June 2026 and advanced to the role of Full-Stack Developer at Aster Innovations.

Full-Stack Developer | Aster Innovations (Pvt.) Ltd., Pulchowk, Lalitpur **Jul 2026 - Present**

- Implement full-stack features and REST APIs for company software projects based on approved requirements and technical designs.
- Develop and optimize application logic with proper validation and error handling.
- Write unit and integration tests, participate in code reviews, and address QA and security findings.
- Debug and resolve defects while maintaining compatibility with existing services; keep technical documentation current and follow Git-based workflows.

PROJECTS

Online Grocery Store | HTML, CSS, JavaScript, AJAX, PHP

- Developed an e-commerce style application allowing users to browse and purchase groceries online.
- Built admin-side CRUD operations for products, categories, and stock management.

Income & Expense Tracker | HTML, CSS, JavaScript, PHP, MySQL

- Created a system for recording daily income and expenses with category-wise views.
- Added downloadable income and expense summary reports.

Gaming Paradise - Web-Based Game Platform | Laravel, PHP, JavaScript, AJAX, MySQL, JavaFX

- Built a points-based gaming platform where users play games, claim daily bonuses, and grow their points.
- Covered backend development, API integration, and a JavaFX desktop version during the internship.

DigiKarobar - Intelligent Business Management Solution | Laravel, Blade, JavaScript, Bootstrap, MySQL

- Developed a multi-tenant web application to manage purchases, sales, inventory, and reports.
- Implemented operational features including low-stock alerts and sales trend analysis.
- Configured and tested the application on an Apache server environment (XAMPP).
